

FINAL CALL FOR POSTERS on Technology and Innovation!

Arctic Observing Summit 2014
Helsinki, Finland, 9 – 11 April 2014

The Arctic Observing Summit will have more than 150 participants from politics, management, research funding, and scientific organizations. Take this opportunity let them know about your work! We aim to promote dialogue and cooperation between the Arctic research community and those engaged in the innovation and development of environmental observing technologies.

Posters or other forms of demonstration are invited on any technology that helps to deliver science in polar regions, or has the potential to do so. This could include sensors, instruments, power systems, vehicles (including unmanned drones etc.), buildings, experiment coordination etc., as well as practical aspects of operating in polar regions. We welcome contributions from industrial and commercial interests, free of charge.

This will also be an opportunity to mingle with AOS speakers, panelists and other participants. Lunch sandwich, wine and non-alcoholic drinks will be served.

Time: 12.00 – 13.30 on Thursday 10 April

Place: Helsinki University, AOS 2014

Posters, roll-ups and displays

Abstract Submission:

<http://www.arcticobservingsummit.org/poster-abstract-submission>

Deadline April 4

The poster exhibit and Session 3 on *Technology and Innovation* is organized by the Forum of Arctic Research Operators (FARO) in collaboration with the European Polar Board (EPB) and the International Arctic Science Committee (IASC), as a contribution to the Arctic Observing Summit (AOS 2014) and the 3rd International Conference on Arctic Research Planning (ICARP III).
