IARPC Approved New Principles for Conducting Research in the Arctic

The screenshot shows a web browser window with the URL <https://www.iarpcollaborations.org/principles.html>. The page title is "Principles for Conducting Research in the Arctic". The main content area includes a paragraph stating that the Interagency Arctic Research Policy Committee (IARPC), chaired by the National Science Foundation (NSF), has revised the *Principles for Conducting Research in the Arctic* (and at <https://www.nsf.gov/geo/opp/arctic/conduct.jsp>). Below this, it lists the core principles for conducting research in the Arctic:

- Be **Accountable**
- Establish Effective **Communication**
- **Respect** Indigenous Knowledge and Cultures
- Build and Sustain **Relationships**
- Pursue Responsible **Environmental Stewardship**

Below the list is a video player showing a video titled "Revising 'The Principles for Conducting Research in the Arctic'" from Alaska Teen Media. The video player shows a scene of reindeer in a snowy landscape.

On the right side of the page, there is a list of 9 items:

1. Download the *Principles for Conducting Research in the Arctic 2018*
2. Review the previous *Principles for the Conduct of Research in the Arctic (1990)*
3. Timeline of the Process for Revising the *Principles for Conducting Research in the Arctic 2018*
4. Download and print a flyer of this page
5. Download the bibliography of works used to write the Principles
6. Review the comments on the draft versions of the revised Principles
7. Download the video (SD/13MB, HD/47.MB)
8. View the DRAFT Principles Released on the Federal Register for Comment on July 5th, 2018
9. Download informational poster

<https://www.iarpcollaborations.org/principles.html>

Learn about EU-PolarNet at Polar 2018

By [Matthew Druckenmiller](#), Sea Ice Action Team Coordinator, Study of Environmental Arctic Change

April 30, 2018

The 4th [EU-PolarNet](#) General Assembly took place on March 27 -28 in Tallinn, Estonia, where representatives of about 30 institutions from across Europe discussed how to effectively develop the Integrated European Polar Research Programme.

At Polar 2018 in Davos, Switzerland, there will be an EU-PolarNet Side Event (June 19) to discuss *European Key Research Priorities for Both Poles* and a presentation (June 21) on *Co-designing a European Research Programme and the lessons learned along the way*. More details can be found [here](#).

Topics: [EU Arctic policy](#), [IASC](#), [POLAR 2018](#), [PolarNet](#)

Teams: [U.S. Forum for the International Arctic Science Committee \(IASC\)](#)

Accelerating the pace of Arctic research

Collaboration fosters creativity. Through IARPC (Interagency Arctic Research Policy Committee) Collaborations, scientists from Federal, State, academic, NGO, and industry organizations find talent, share their work, and team up to solve hard problems.
