

PolarPOL

Polish Multidisciplinary Laboratory
for Polar Research

Polish Multidisciplinary Laboratory for Polar Research

- **A goal for creating the PolarPOL Laboratory is to combine technical and organizational ability for running inter-disciplinary research and observations within natural phenomena taking place in Arctic environment.**
- **The Laboratory is going to strengthen the Polish contribution to creating worldwide network for research and monitoring of land and marine environments in polar zones which are crucial for understanding the dynamics of environmental changes all over the globe (global warming and raising sea levels especially).**

Polish Multidisciplinary Laboratory for Polar Research

- **Laboratory is going to run its operations as a unit of the Institute of Geophysics PAS and shall expand its research potential of the existing Centre for Earth and Planetary Studies.**
- **Technical infrastructure of the Polish Multidisciplinary Laboratory for Polar Researches consists of:**
 - **Polish Polar Station in Spitsbergen,**
 - **Research Vessel Oceania,**
 - **Horyzont II research-training vessel,**
 - **Highly specialized laboratories operated by Scientific Polar Network.**

Polish Multidisciplinary Laboratory for Polar Research

1. Institute of Geophysics, Polish Academy of Sciences in Warsaw
2. Institute of Geological Sciences, Polish Academy of Sciences in Warsaw
3. Institute of Oceanology of the Polish Academy of Sciences in Sopot
4. Space Research Centre, Polish Academy of Sciences in Warsaw
5. Institute of Paleobiology, Polish Academy of Sciences in Warsaw
6. Institute of Parasitology, Polish Academy of Sciences in Warsaw
7. Departament of Antarctic Biology, Polish Academy of Sciences in Warsaw
8. Faculty of Biology, Gdansk University
9. Faculty of Biology and Earth Sciences, Jagiellonian University, Krakow
10. Faculty of Biology and Earth Sciences, Nicolaus Copernicus University, Torun
11. Faculty of Biology and Earth Sciences, Maria Curie-Sklodowska University, Lublin
12. Faculty of Biology and Environmental Protection Department of the Lodz University
13. Geodesy Department of the Warsaw University of Technology
14. Faculty of Geology, Geophysics and Environmental Protection, University and Science of Technology in Krakow
15. Faculty of Geographic and Geological Sciences, Adam Mickiewicz University, Poznan
16. Faculty of Earth Sciences, University of Silesia, Sosnowiec
17. Faculty of Earth Sciences and Environmental Development, Wroclaw University
18. Navigation Department of the Maritime Academy in Gdynia
