Call for Bids to host the International Directorate of the Association of Polar Early Career Scientists (APECS)

Who we are: The Association of Polar Early Career Scientists (APECS) is an international and interdisciplinary organization for undergraduate and graduate students, postdoctoral researchers, early career faculty members, educators and other professionals interested in the Polar and Alpine regions and the wider cryosphere. We are a dynamic community that provides a platform for promoting collaborations and exchange among its members and with the wider Polar research community, endeavouring to create a continuum of leadership in polar sciences. The international and transdisciplinary collaboration APECS is providing, has been proven especially important in challenging times of social distancing.

What we are looking for: A host and sponsor(s) for our International Directorate Office starting January 2022. APECS is open to having either:

- One secretariat location with one or more institutions hosting and providing support for at least 1.5 staff positions; or a
- A dispersed secretariat option with:
 - the main full-time staff position (Executive Director) being hosted / funded by one or more institutions in one location;
 - support-position(s) (part-time or full-time) being hosted and funded by other institutions / countries in another location

Bids can be sent in from institutions interested in being:

1. a host and sponsor of the International Directorate Office
2. a partial sponsor (but no hosting) of the International Directorate Office
3. a host and sponsor of a sub-office of the International Directorate
4. a partial sponsor (but no hosting) of a sub-office of the International Directorate
