

SPRS Arctic report 2021

How did Covid-19 affect operations?

FARO, 2022-03-26

The Synoptic Arctic Survey Expedition

- » Postponed from 2020!
- » Vaccination mandatory (if possible)
- » 8 days of isolated individual quarantine prior to expedition
- » Single rooms for 78 pax in Malmö
- » Pre-prepared “safe & disinfected” transport to I/B Oden via bus + tender boats

» Successful expedition!

Abisko Science Station, Sweden

- » Reduced number of visiting scientists
- » Limited contacts between the science groups
- » Covid – routines & handling plans

Plans for 2022

Terrestrial Field Campaigns

- » Eocene climate change record in East Greenland, Constable Point
- » Tectonic coupling of the Yukon-Koyukuk and Canada Basins

I/B Oden

ArcOp2022 (planning affected)
